

Accessible Collections at PSPLD

Print – We offer Large Print and Dyslexia friendly books.

Ebooks – We offer Libby and eRead. Both require your library card number and your pin number to log in. If you need assistance with your pin number, please call either location for assistance. Both Libby and eRead offers a variety of options for readers. You can change the font size, font style, page layout, light and the line spacing for e books.

Audiobooks - We offer audio books on CD as well as Playaways. Playaways are small, portable audio books that require headphones. The units are small and can easily fit in a shirt pocket. You can also use an accessory to run the audio book through your car's speaker system.

Music CD's – We offer a variety of music on CD's.

The Prairie Skies Public Library District is a part of the RAILS library system, which means that if we don't own an item, we have a system of more than 200 libraries that we can borrow items from. If you need a book in a different format, we can get access to it for you, whether that is braille, large print, audio or other options. You can search RSCat Mobile or search our website to see what resources are available.

If you need other resources, such as a book support, technology support or physical aids, please contact either location for assistance.
